

Diploma in UI UX Design Process

Introduction to User Interface Design

Quiz Result

Quiz Completion Time : 00:07:53

Wrong/Skipped

Right Answer

Your Score : 80%

Passing Score : 50%

Your Strong Areas:

- Lesson - [What is User Interface and How is it Different from UX](#)
- Lesson - [Key Elements of User Interface](#)
- Lesson - [Principles of Interaction Design](#)
- Lesson - [Types & Features of User Interfaces](#)
- Lesson - [Colour Theory for Better Interfaces](#)
- Lesson - [UI Design Best Practices](#)

1. Which of the following feature aid users in executing commands like open or print?

Your Answer : Menu-Driven Commands ✓

Description : Menu-driven commands typically offer users a structured way to access and execute various functionalities within an application, including common commands like open or print, which are essential for interacting with documents and files.

Question Reference From : Types & Features of User Interfaces

2. Which of the following color is most suitable for promoting a sense of tranquility and calm in a meditation app's user interface?

Your Answer : Blue ✓

Description : Blue is often used to evoke feelings of calmness and tranquility, making it a suitable choice for UI elements in meditation apps to create a serene and peaceful user experience.

Question Reference From : Colour Theory for Better Interfaces

3. Which UI element is essential for a travel app's landing page to enhance user engagement?

Your Answer : Slider ✗

Correct Answer : Search Box ✓

Description : A search box is essential for a travel app's landing page as it allows users to quickly find and book their desired travel options, enhancing their engagement and user experience.

Question Reference From : Key Elements of User Interface

4. Which of the following color(s) belongs to the warm color category?

Your Answer : All of the Above ✓

Description : Warm colors like orange, red and yellow are characterized by their association with energy, warmth and vibrancy. They are effective in UI design for creating a sense of excitement, urgency or warmth, depending on the context.

Question Reference From : Colour Theory for Better Interfaces

5. What feature in an e-commerce app allows users to know they have successfully added an item to their cart?

Your Answer : Pop-up confirmation message ✓

Description : A pop-up confirmation message provides immediate feedback, clearly indicating to the user that the item has been successfully added to their cart.

Question Reference From : Principles of Interaction Design

6. Which of the following pattern guides users through a sequence of steps or decision?

Your Answer : Wizard Pattern ✓

Description : The wizard pattern provides a structured sequence of steps or decisions, guiding users through complex tasks or processes by breaking them down into manageable steps, thereby improving usability and reducing errors.

Question Reference From : UI Design Best Practices

-
7. Which input control is optimal for ensuring secure login processes in a mobile banking app?

Your Answer : Data Fields 

Description : Data fields are essential for secure login processes as they allow users to input sensitive information like usernames and passwords securely. They can be paired with encryption to ensure data privacy and security.

Question Reference From : What is User Interface and How is it Different from UX

-
8. User control is about limiting choices and restricting user navigation to streamline the interface.

Your Answer : True 

Correct Answer : False 

Description : User control is about giving users the ability to make choices, navigate flexibly and customize their experience, enhancing their sense of control over the interface.

Question Reference From : Principles of Interaction Design

-
9. Which of the following container element is most suitable for a news website displaying various articles?

Your Answer : Card 

Description : Cards are well-suited for displaying articles on a news website as they can contain a mix of text, images and links in a structured format that is easy to browse and interact with.

Question Reference From : Key Elements of User Interface

-
10. Which UI element is crucial for users to enter their travel dates in a travel booking app?

Your Answer : Date Pickers 

Description : Date pickers are essential for users to enter travel dates as they offer a user-friendly interface to select dates, reducing the chances of input errors and improving the overall booking experience.
